

Technical Product Manager Adapters (m/f)

The company

E-commerce continues to grow dynamically and payments are an important part of it. Payments are one of the last big areas ripe for disruption and optile has a superior range of solutions and unique value propositions that will help us to succeed within this growing market.

optile is a Munich-based B2B company that offers an open and provider-independent payment platform to help businesses integrate multiple payment gateways, providers, and methods on a global scale within hours. Our software guarantees online businesses, focused on recurring customers, more freedom of choice and reduced complexity in their payment transactions. optile provides intelligent payment solutions and tools to enable cross provider controlling and scoring, and to help our customers to reduce their operating costs.

With an experienced team of motivated online payment professionals, optile bundles a unique and profound know-how with respect to online payments and e-commerce. Founded in 2010, optile consists of a truly international team of over 40 team members from a wide variety of countries.

The position

- ▶ Combination of software engineering with management
- ▶ Management of vital back-end components of our product:
 - Drive development of new components
 - Coordinate with developers to maintain existing components
- ▶ Management of projects with external (remote) development teams:
 - Write clear technical specifications
 - Monitor development progress, solve blockers and meet deadlines
 - Provide technical support to the external developers
 - Review and test the results
- ▶ Get hands dirty and write code fixes if needed
- ▶ Coordination with internal/external developers, other product managers and the sales team

Required skills

- ▶ Studies in a technical field (e.g. Computer Science, Media Informatics)
- ▶ Good communication skills. Management experience is a plus
- ▶ Knowledge of Web Service Standards like JSON, XML, REST

- ▶ Knowledge of Java and ability to write clean code
- ▶ Analytic expertise
- ▶ Fluent in English. Good German is a plus, but not essential

Tools we use

- ▶ Atlassian JIRA/Confluence
- ▶ Spring
- ▶ TestNG
- ▶ Git
- ▶ Maven
- ▶ Jenkins

What we offer

- ▶ a young, dynamic, and spirited team that knows how to have fun
- ▶ a large, open, and very well naturally lit office and large terrace and lounge
- ▶ central location in a young and upscale quarter with excellent access to public transport (U4/U5)
- ▶ high potential for personal development
- ▶ laptop of your choice (Apple or ThinkPad)
- ▶ an unlimited supply of excellent, freshly ground espresso coffee, soft drinks and fruits

We look forward to hearing from you!
